EXAMINER'S AMENDMENT

1. This is a sixth office action in response to applicant's amendment filed, 29 June 2004, of application filed, with the above serial number, on 12 November 1999 in which claims 2, 3, 5, 6, 10, 12-14, 16-18 and 22 have been amended and claims 28-29 have been added.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony England (Reg. # 35,129) on 07 April 2005.

The application has been amended as follows:

Please amend claim 6 to read:

6. The method of claim 2, wherein step (f) comprises, for each transaction within said load, returning a result to said client emulation server; and measuring, by said client emulation server or by said tested server, the one or more performance criteria responsive to the processing of said load by said tested server.

3. The following is an examiner's statement of reasons for allowance: Applicant has amended the claims to include limitations of having a client emulation server including a workload execution file referencing a collection of live maps for testing the performance

of a server, and varying the processing loads to a different number of instances and repeating such measuring. The prior art of record fails to teach or suggest individually or in combination the claimed limitations. Therefore, claims 2-6, 10, 12-18, 22, and 28-29 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
